

Resources to accompany 10 TALK 32: Engagement Strategies

1. [Build Your Army](#)
Brandon Thornton's presentation
2. [ISU Math Ed Resources](#)
Downloadable Word/PDF Versions of Engagement Resources
3. [Partner Practice](#)
Google Slides Template
4. [Get Connected: A survival guide to burnout](#)
Article by Brandon Thornton
5. [Color By Numbers](#)
Google Jamboard Example
6. [Color By Numbers](#)
OneNote Example
7. [Five Minute Connectors](#)
Downloadable slideshow that you can use with students.
Connecting through a screen can be a challenge, and yet we need to continually find fresh ways to build that sense of community throughout the year. We hope this helps!
8. [Pieces of Me: Band-Aids](#)
Brandon's "Keeping it Real" blog entry
9. [The 2x10 strategy: a miraculous solution for behavior issues?](#)
The 2x10 strategy is simple: spend 2 minutes per day for 10 days in a row talking with an at-risk student about anything she or he wants to talk about.
10. [Brain-Based Approach to Math](#)
In the beginning of the school year, it is critical to build a classroom culture that fosters the critical thinking, productive struggle, and constructive conversations that will help students be successful in mathematics all year long.
